DUO AIR

DUO PLAST AG
YOUR SUCCESS IN OUR FILM!

The stretch film that breathes and lets breathe.

- **High air permeability**
- **Reduced freezing and cooling times**
- **Prevention of condensation**

Industries and products:

- Fruit & vegetables, dairy and dairy products, delicatessen, canned goods, confectionery
- Beverages, refrigerated and frozen products
- Medical and care products, pharmaceutical products, chemical products
- Plants and horticulture, building materials, hazardous goods
- Pet Food

Our 3 pillars of competence

Packaging films | **Packaging machines** | **Packaging optimization**

Free analysis of your CO_2 balances (Product Carbon Footprint - PCF) as part of packaging optimization. Our PCF determination method is certified and audited.

Safe transport and optimal air circulation

No soaked cartons

No rust on canned goods

Reduced freezing and cooling times

Reduced film usage

Optimal process reliability

- No soaked and softened cartons due to water accumulation.
- Labels remain undamaged and legible.
- No rust on canned goods.
- Reduced freezing and cooling times.
- Base material blown film → with high holding forces and excellent pallet stability.
- Lower material consumption → resource conservation → cost savings.
- Good adhesion properties and sealability → prevention of loose film tails → no disruptions in high-bay warehouse operations.
- Manufactured in a BRC-certified facility.
- Adhesive on one side.

TECHNICAL FEATURES

	Machine rolls			Hand roll
Film thickness	13 µm	23 µm	26 µm	13 µm
Film width	420 mm	450 mm	450 mm	420 mm
Running meters	2.200 m	1.300 m	1.150 m	300 m
Packing scheme	39 rolls per pallet	39 rolls per pallet	39 rolls per pallet	240 rolls per pallet

Also available as machine and hand stretch film in DUO EARTH version **with 35% PCR.**
